**5. The object of the declaration described above is in conformity with the relevant Union harmonization legislation:**  
Regulation (EU) 2023/1542 concerning batteries and waste batteries

**6. The following harmonized standards and technical specifications have been applied:**

| Standard(s) / Common specification(s) | Title(s)                                                                         |
|---------------------------------------|----------------------------------------------------------------------------------|
| IEC 60896-21:2004                     | Stationary lead-acid batteries Valve regulated types. Methods of test            |
| IEC 60896-22:2004                     | Stationary lead-acid batteries Valve regulated types. Requirement                |
| IEC 61429:1997                        | Marking of secondary cells and batteries with the international recycling symbol |
|                                       | ISO 7000-1135                                                                    |

**7. Notified body (where applicable)**

|                       |     |
|-----------------------|-----|
| Name                  | N/A |
| Address of NB         | N/A |
| Issued date           | N/A |
| Condition of validity | N/A |

**8. Additional information:**

**Signed for and on behalf of: GY Yuasa Battery Europe Ltd.**
