MAINS POWER SUPPLY MP012108

IMPORTANT PRODUCT SAFETY INFORMATION

- ✓ **DO** ensure the power supply is firmly engaged with the socket.
 - ✓ **DO** check that the power supply is suitable for your local mains voltage and socket.
 - ✓ **DO** check that plugs and sockets are undamaged before use.
 - ✓ **DO** ensure the socket adaptor is properly engaged on the power supply unit.
 - ✓ **DO** ensure the power supply is correctly rated for the power requirement of the device to be used.
-
- ✗ **DO NOT** use in damp or wet conditions.
 - ✗ **DO NOT** use outdoors - for indoor use only.

RECOMMENDED USAGE

For use with mains socket type:

Type A and B – As used in USA and Japan and many other countries including Canada, Mexico, Bermuda, Antigua and Barbuda, Bahamas and Barbados.

Type C and F – As used in France, Spain, Portugal, Germany, Austria, Italy, Netherlands, Belgium and many other countries including Sweden, Monaco, Bulgaria, Croatia and Romania.

Type G – As used in the United Kingdom, Ireland and many other countries including Singapore, Malaysia, the United Arab Emirates, Saudi Arabia, Cyprus, Malta, Hong Kong, Qatar, Oman and Kuwait.

Type I – As used in Australia, New Zealand and many other countries including China, Cook Islands, Fiji, Papua New Guinea, Samoa and Tuvalu.

NOTE: Some mains sockets do not have a ground (Earth) connection. Please see the power supply packaging and/or labelling for further details.

WARNING: Check that the polarity of the power supply output is correct for your device if not a USB output type.

If in doubt consult a qualified electrician for guidance.
