## Soldering Iron Stand with Reversible Dispenser

### HANDS-FREE SOLDERING

Saving you time and boosting soldering efficiency, the SSLW1 Soldering Stand makes creating neater, safer products comfortable and fast!

Engineered by our expert wireman, our Soldering Iron Stand frees up one hand to hold and join parts together quicker and tidier.

Acting as a third arm, the SSLW1 makes it easier for beginners and professionals to solder and create new products without the unnecessary use of clamps, jigs, or improper placement of soldering irons.
