TE Connectivity

Product Change Notification: P-26-029885

PCN Date: 10-MAR-26

Customer: DISTRIBUTOR NA (66666661)

Location: NO CITY PROVIDED

Agreement: 120513180001

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

INTERCONTEC stamped 1mm pin

Description of Changes

Manufacturing location change for stamped 1mm pin contact. Relevant contact is used in the finished good part numbers listed below.

Reason for Changes:

Dear Customer, because of our unwavering pursuit of process excellence, we are pleased to announce the insourcing of the stamping and plating process for the 1 mm contact used in the finished goods listed to optimize our supply chain. In this context, a minor material change in order to comply with TE's standard material recommendations for this contact will be executed. The current base material CuSn8 will be switched to CuSn4. This process is carried out in strict accordance with a transfer procedure to avoid negative impact on quality, supply capacity, or form, fit, and function of the relevant products. Before any parts will be delivered, an internal release based on our specifications will be executed, to ensure the compliance with the relevant specifications. If you have any queries, contact your designated contact at TE within 14 business days after receipt of this PCN.

Estimated Dates:

Last Order Date (Obsolete Parts Only):

First Date To Ship (Changed Parts Only):

12-SEP-2026

Last Ship Date (Obsolete Parts Only):

Last Date for Mixed Shipments: (Changed Parts Only):

No Mixed Shipments
