TE Connectivity

Product Change Notification: P-26-029800

PCN Date: 23-FEB-26

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Power F 24V improvement

Description of Changes

As part of our continued product improvement, we come to inform that we are introducing a higher temperature-index coil wire, which will enable the product to withstand higher ambient temperatures. The copper wire will maintain all the characteristics, only the enamel is changing. Therefore, the coil resistance, inductance and all other electrical responses will be the same as the current one. Also, the supplier will be the same. For further information, please contact our Application Engineers.

Reason for Changes:

Product improvement.Coil materials uniformization

Estimated Dates:

Last Order Date (Obsolete Parts Only):

First Date To Ship (Changed Parts Only):

01-JUL-2026

Last Ship Date (Obsolete Parts Only):

Last Date for Mixed Shipments: (Changed Parts Only):

No Mixed Shipments
