### DESCRIPTION OF CHANGE:

In order to enhance the product reliability, Würth Elektronik eiSos will change the Roller material.

There will be no change in fit, form, function, quality or reliability of the product.

The storage conditions (in original packaging) specified in the datasheets have been updated according to DIN EN 61760-2.

The new revision of the affected part numbers will be sent out after the previous revision is out of stock (according to FIFO - first-in, first-out).

The preliminary datasheets of the affected part numbers will be available on the website after the PCN date.

#### PART NUMBER, REVISION & DATASHEET:

| Part Number  | Revision before change  | Revision after change   |
|--------------|-------------------------|-------------------------|
| 463093370403 | <a href="#">001.002</a> | <a href="#">001.003</a> |
| 463093393403 | <a href="#">001.001</a> | <a href="#">001.002</a> |

Note: the links in the table above remain valid until the effective date.

#### DETAILS OF CHANGE:

##### before change

Roller Material: Copper Alloy with nickel plating

##### after change

Roller Material: Stainless Steel

#### Material Properties:

|                   |                 |
|-------------------|-----------------|
| Lever Material    | Stainless Steel |
| Roller Material   | Copper Alloy    |
| Roller Plating    | Nickel          |
| Actuator Material | PBT             |

#### Material Properties:

|                   |                 |
|-------------------|-----------------|
| Lever Material    | Stainless Steel |
| Roller Material   | Stainless Steel |
| Actuator Material | PBT             |

#### RELIABILITY / QUALIFICATION OF CHANGE:

An additional reliability testing was performed and approved.

Qualification according to WE reliability standards.

Additional details of the tests can be found in the table below:

| Test Item  | Sample size | Reference       | Test conditions                                                                                                                      | Acceptance |
|------------|-------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------|------------|
| Salt Spray | 29          | MIL-STD-202-101 | Salt solution concentration: 5% NaCl<br>pH : 6.5 – 7.2<br>Test duration : 48 hours<br>Atomization : 0.5-3ml/hr for 80cm <sup>2</sup> | Approved   |
