

Product Notification Form

PCN #: PCN26-0030	Rev: 1.0	Issue Date: April 02, 2026										
Reason for Notification: Transport packaging change for products with M.2 2230 form factor. ☒ minor / ☐ major												
Detailed Description: With this product change notification, Swissbit introduces a new designed packaging solution for the products with M.2 2230 form factor. The affected product series are listed below. As an improvement, stacking knobs were added. These knobs prevent the trays from sliding into one another during the strapping process.  The distance between the holding down clamps has been reduced.  Swissbit designed the new tray while the testing of the new packaging solution was carried out by an external test laboratory. Swissbit will be happy to provide qualification report on request. The new tray provides greater stability and product protection during transportation and storage. There are no changes to the product itself (form, fit and function).												
Quality impact: ☐ minor / ☐ major / ☒ no												
Reliability impact: ☐ minor / ☐ major / ☒ no
