Title / short description	PSR-PSXX-... / PSR-PCXX-... / PSR-MCXX-... New outer packaging
Affected article category	Functional safety
Change category	Packaging, Marking
Change number	CDN260007-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Environmental protection in connection with outer packaging and standardization of printing

Detailed description of the change

We strive to avoid generating unnecessary waste, both in terms of packaging and package contents. Therefore, in future, smaller outer packaging will be used where possible. The packing slip of the listed products will only be available digitally, with a Digital Twin for industry (DT4I code) instead of a QR code printed on the device. This will ensure that the latest documentation is available to the customer at all times.

New packaging dimensions for PSR-PSXX-... (6.8mm devices): 107mm x 94mm x 10mm

New packaging dimensions for PSR-MCXX-... / PSR-PCXX-... (12.5mm devices): 118mm x 115mm x 15mm

Identifying characteristics

The DT4I code can be seen on the left side of the housing instead of the QR code (PSR-MCXX-... / PSR-PCXX-...) or on the right side of the housing (PSR-PSXX-...).
