TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

PowerTube HD1000 and HD1400 90􀳦 Header 􀳦 Busbar process manufacturing location change.

Description of Changes

The busbar machining process will be transitioned from external operations to in-house production by our supplier.

Reason for Changes:

Dear Customer, We hereby inform you of a transfer of tools and/or processes. This transfer is carried out under a strict procedure to fully maintain product quality, supply capability, and form fit function. The new manufacturing site operates under a certified quality management system compliant with automotive standards. Prior to delivery, a TE internal release test will be performed in accordance with applicable part specifications. Upon request, PPAP Level 2 will be available for transferred tools producing finished TE products, and PPAP Level 1 will be available for transferred components where the finished product manufacturing location remains unchanged. If PPAP is required, please inform the responsible TE Sales Contact within two months of receiving this PCN. Note: Customer drawing revisions will not be changed. Product traceability will be maintained by TE and provided upon formal request.
