☐ Yes ☒ No

DESCRIPTION:

The life cycle status of the affected part numbers will be changed from ACTIVE to NRND (Not Recommended for New Designs), which has the following effects:

- no availability for new designs & design kits
- sampling is no longer possible
- the affected part numbers will still be available for existing designs in the long term
- the estimated lifetime will be up to **5 years**

For new developments, we strongly recommend the alternative part numbers mentioned in the table below. The newer products offer improved performance, enhanced functionality, and long-term design support, making them the preferred choice for future-oriented applications.
