

2605271821 Standardization of T&R Packing Quantity to 2,500 Units in 13-inch Reel

PCN Issue Date: May 27, 2026

Effective Date: Sep 02, 2026

PCN Type: Packing

Description of Change

Silicon Labs is pleased to announce the standardization of tape-and-reel (T&R) packing quantities to 2,500 units per 13-inch reel for QFN-3x3, QFN-4x4, QFN-5x5, QFN-6x6, QFN-7x7, and QFN-9x9 packages. This change aligns these products to a consistent, standard shipping configuration.

During a transition period of approximately six (6) months, shipments may be fulfilled using either the existing reel quantities and reel sizes or the new standardized 2,500 units per 13-inch reel configuration.

The product data sheets that currently mention packing quantity will be updated once the PCN becomes effective.

Software Impact Description

No impact

Reason for Change

To align products with a standardized shipping medium

Impact on Form, Fit, Function, Quality, Reliability

No change to Form, Fit, Function, Quality, Reliability

Customer Response

Lack of acknowledgment of the PCN within 30 days constitutes acceptance of the change, Ref. JEDEC-J-STD-046.

To request further data or inquire about this notification, please contact your Silicon Labs sales representative. A list of Silicon Labs sales representatives is available at <https://www.silabs.com>.

Customers may approve early PCN acceptance by emailing approval, along with PCN # to PCN@silabs.com

User Registration

Register today to create your account on Silabs.com. Your personalized profile allows you to receive technical document updates, new product announcements, "how-to" and design documents, product change notices (PCN) and other valuable content available only to registered users. <https://www.silabs.com/profile>

Qualification Data

Not required - same qualified production materials is used

**Smart.
