To Our Customers

EU Energy-related Regulations and UKCA Marking Compliance for CWA Series

We would like to express our sincere gratitude to you for your continued support.
We would like to inform you that the product labels and datasheets for the following CWA series models will be updated to comply with EU Energy-related regulations and UKCA marking requirements.

Please find the details below.

Best regards,

Details

1. Applicable Models

CWA3S-24-CD, CWA6S-24-CD, CWA9S-24-CD

2. Details of Changes

- ① Compliance to DIRECTIVE 2009/125/EC and REGULATION (EU) 2017/1369
 - Add an additional label showing the values of color temperature and total luminous flux to the product.
 - Add an additional label to the individual packaging box.
 - Add a statement in the product specifications indicating ErP Directive (Commission Regulation (EU) 2019/2020) compliance.
 - Change the total luminous flux value in the product specifications from the minimum to the typical value.
- ② Compliance with UKCA Marking
 - Add an additional label with the UKCA mark to the product.
 - Add a statement in the product specifications indicating UKCA marking compliance.

* There are no changes to the product characteristics, product appearance, dimensions, model or price described in the product specifications.

* To identify updated products, a black dot (●) will be affixed to the outer carton label.

3. Effective Date

The changes will be phased in starting with shipments scheduled for June 2026.

Please note that the timing of the above change may change depending on the order status.

4.Additional Notation Content
