

Product change notification (PCN)

Title / short description	New equipment
Affected article category	Electronics housing
Change category	Form and appearance
Change number	PAC260010-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

New plastic tool

Detailed description of the change

The previous plastic tool has reached the end of its service life and must be replaced with a new tool. As part of this, a product improvement will be introduced in the form of optimized radii and draft angles. The implemented modifications are minor and limited to small geometric optimizations. These changes do not affect the fit, form, or function of the component. All technical and functional properties remain unchanged, and full compatibility is maintained.

Due to the minimal nature of the change, no separation of production batches will be introduced. Mixed deliveries of components from the previous and the new version may occur, including within one packaging unit. Interchangeability is fully ensured.
