Product Description: (Text limited to 120 characters)

SR6 next Gen relay - adhesive capillary improvement

General Description of Changes

Dear Customer, we would like to inform you of a planned update to the SR6-next-Gen relays as part of our continuous improvement activities. As part of this update, the geometry of the adhesive capillaries next to the relay terminals will be changed to an improved design in terms of TE-internal production efficiency. This update will not be noticeable in any way, apart from a minor visual difference on the bottom of the relay.

Reason for Changes:

Continuous improvement of manufacturing processes.
