More Information

These Multimedia Dual Modules offer high density connectivity options suitable for any standard faceplate designed for fitting 25 x 50mm connectors. Available in white as standard, 86 x 86mm and 86 x146 bevelled faceplates can be supplied to match.

All connectors are made to relevant standards. Category 6 and 6A connectors are made, for example, to IEC 60603-7, ISO/IEC 11801, FCC68 and to TIA/EIA 568B and have an insertion life of >750 mating cycles. All products are UKCA/CE compliant (i.e including ROHS and REACH).

The 2 port 25 x 50 adaptor (KA902je) achieves double the usual density by rotating the connector presentation by 90 degrees and is produced in durable ABS.
