DESCRIPTION OF CHANGE: To ensure an improved product assembly, Würth Elektronik eiSos is changing the adhesive to add varnish and move the location of the core edge bonder application. There will be no change in fit, function, quality or reliability of the product. The new revision of the affected part numbers will be sent out after the previous revision is out of stock (according to FIFO - first-in, first-out).	
DETAILS OF CHANGE: The location of the edge-bonding adhesive is changing and a varnish dipping process is being added. The edge-bonder before and after locations are circled below. The parts may also have a yellow tint as a result of the varnish dipping. See before change in red and after change in green.
