DESCRIPTION OF CHANGE:

In order to enhance the product reliability, Würth Elektronik eiSos, will add VCI paper to the packaging of the affected part numbers listed below. The VCI paper provides additional protection against oxidation caused by humidity. As a consequence of this packaging improvement, the standard packing quantity (SPQ) of some affected part numbers must be adjusted.

The affected part numbers and the corresponding SPQ changes are listed in the Details of Change section. There will be no change in fit, form, function, quality or reliability of the product.

The new revision of the affected part numbers will be sent out after the previous revision is out of stock (according to FIFO - first-in, first-out).
