

124 Series Solenoid Notification Bulletin

August 01, 2026

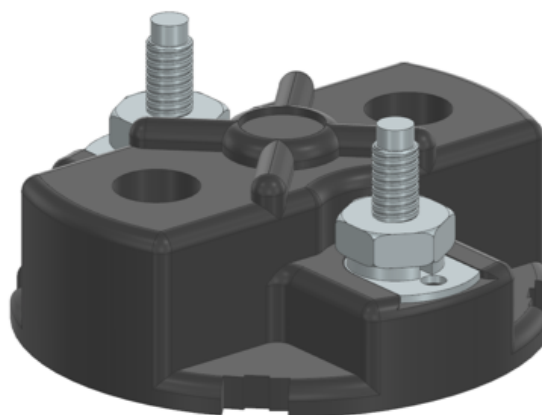

SUBJECT: 124 Series Solenoid Notification

This notification is to inform our customers that due to a supplier shortage, we will be using an alternate screw with a different screw tip (shown below) for parts manufactured starting 8/1/26, manufacturing date code 3226 and lasting through 10/05/26, manufacturing date code 4226. This alternate screw complies with all applicable dimensional, material and performance requirements and testing. This change does not affect product fit, form, function, performance, reliability, or warranty.

Current Construction

Alternate Screw

Should you have any questions, please contact your local Copeland Sales Manager.

Regards,

Laurel Sagartz
