Bourns® SRF4532 Series Common Mode Chip Inductors

Additional Source of Supply for Top Cover and Ferrite Core

Riverside, California – June 26, 2026 – In order to support our fast-growing demand, enhance continuity of supply and provide maximum flexibility to customers, effective September 28, 2026, Bourns will begin using additional top cover and ferrite core suppliers for the SRF4532 Series Common Mode Chip Inductors. The additional suppliers have been qualified and are included in the Bourns' Authorized Vendor List. A list of affected part numbers is included below.

Affected Part Numbers	
SRF4532-1R0Y	SRF4532-510Y
SRF4532-110Y	SRF4532-101Y
SRF4532-220Y	

Bourns has completed its evaluation of the alternative materials from the additional supplier.

The fit, form, function, quality and reliability of the affected part numbers will remain the same. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that deliveries of products manufactured using top cover and ferrite cores from both sources will begin: **September 28, 2026**

First date code using the above changes: **2640**

Orders for the affected part numbers received after September 28, 2026, may be filled interchangeably from either the existing supplier or the additional supplier.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
