Subject: Quality Notification 202606031DNU01: Discontinuation Notification of NVT4857UK has been distributed to customers

Discontinuation Notification Update

202606031DNU01 : Discontinuation Notification of NVT4857UK

Note: This notice is NXP Company Proprietary.

Issue Date: Aug 21, 2026 **Effective Date:** Aug 22, 2026

Dear EOL End Of Life,

Here is your personalized communication about an NXP notification.
For detailed information we invite you to view this notification online

DN Overview

Update Information

Due to customer Last Time Buy (LTB) demand, we will extend the last time buy (LTB) and last time delivery (LTD) dates as follows:

LTB: February 22, 2027
LTD: August 23, 2027

Discontinuation Information

Discontinuation notification of NVT4857UK due to reduced sales and low demand.
-The suggested replacement part is functionally similar but not package and pin out compatible. Please check datasheet for differences.

This Discontinuation Notice confirms to your company that NXP Semiconductors (NXP) is now discontinuing the manufacture of a number of its integrated circuits and discrete semiconductors listed in the Part Type Affected list included with this notification. In accordance with NXP product discontinuation policy and JEDEC EIA/JESD48, we are hereby giving notice of these product changes so that our customers and partners can adjust their product purchasing records, or make any final lifetime purchases of the discontinued products that can still be supplied by NXP.

While this Discontinuation Notice contains a number of NXP discontinued end-of-life Product Types, the Part Types Affected (PTA) list represents a small percentage of NXP overall semi-conductors product portfolio. Some of these discontinued products have had little to no recent sales history or they are at the end-of-life (EOL) stage. The PTA list may also cover a number of versions or selections of the same basic Product Type.

We regret the inconvenience and impact this notice may cause. NXP Semiconductors' sales, marketing and distribution personnel stand ready to assist you in placing our customers and partners final orders, or in providing product information you require. On behalf of NXP Semiconductors, we appreciate your understanding and assistance in helping us to help you minimize the impact of this product discontinuation on your company. We look forward to NXP Semiconductors' continued support of your company's semiconductor requirements in the years to come.

Terms and Conditions

Last Time Buy Terms and Conditions

Carefully review this information and notify your purchasing offices and buyers to place your company's final purchases for available discontinued products with NXP as soon as possible according to the following last time buy terms and conditions.

GENERAL:
Last time ordering conditions may vary by product. Refer to Parts Types Affected List. The Last Time Buy Date automatically expires when the final available discontinued part type inventory quantity or production unit has been scheduled and/or sold by NXP.

1. DELIVERY DATES:
Last time delivery conditions may vary by product. Refer to the DN Parts Affected List. NXP final delivery date(s) may be affected by limited supply conditions.

2. ORDER PLACEMENT:
a) Acceptance of any Last Time Buy order is not guaranteed. All Last Time Buy orders

are subject to NXP review and acceptance. NXP may accept, reject, limit, allocate, or modify any Last Time Buy order, in whole or in part, in its sole discretion.
b) Order acceptance may depend on numerous factors, including but not limited to available inventory, remaining manufacturing capacity, materials availability, wafer starts, equipment availability, subcontractor support, yield performance, quality considerations, logistics constraints, regulatory requirements, forecast accuracy, customer demand levels, existing customer commitments, strategic business considerations, and other operational or commercial factors.
c) Discontinued product orders placed with NXP are to be clearly identified as a "Last Time Buy" order. Each order must: (a) reference NXP Discontinuation Notice that applies (b) contain your company's requested delivery dates per this notice; (c) be within the minimum order quantity requirements in an existing volume purchase agreement or meet NXP standard minimum order policy; and (d) otherwise conform to all other applicable conditions in this notice.
d) Submission of a purchase order does not constitute acceptance by NXP.

3. PRICING:
The unit sales price for discontinued products covered by this notice shall be determined as follows:
a) Where a valid and enforceable written agreement signed by authorized representatives of both parties expressly establishes pricing applicable to the discontinued products and applicable order quantities, such agreed pricing shall govern solely to the extent expressly required by that agreement.
b) Except as expressly provided in subsection (a), pricing for discontinued products and Last Time Buy orders shall be subject to NXP quotation and acceptance and may differ from historical pricing, prior order pricing, backlog pricing, previously quoted pricing, price book pricing, forecast pricing, market pricing, or any other pricing previously offered or charged by NXP.
c) No prior course of dealing, course of performance, purchase history, ordering pattern, prior quotation, prior acceptance of orders, or historical pricing practice shall create any obligation for NXP to maintain, offer, or extend any particular price for discontinued products or Last Time Buy quantities.
d) Any quantity not expressly covered by an applicable written agreement, any quantity exceeding agreed quantities, any quantity requiring additional manufacturing, inventory commitments, capacity reservations, special handling, or EOL support, and any quantity ordered outside the applicable contractual period shall be subject to NXP's then-current quotation and acceptance.
e) NXP reserves the right to establish pricing for Last Time Buy orders based on, among other factors, product availability, remaining manufacturing capacity, inventory requirements, materials availability, supply chain costs, logistics costs, tariff impacts, EOL manufacturing considerations, and other operational or commercial

considerations.
f) Notwithstanding the foregoing, if NXP experiences an increase in costs after acknowledgment of a Last Time Buy order arising from circumstances associated with continued support of discontinued products, including without limitation material shortages, supplier surcharges, tariffs, duties, regulatory requirements, or costs associated with maintaining or extending manufacturing capability, NXP reserves the right to make a commercially reasonable adjustment to pricing reflecting such increased costs.

4. ACKNOWLEDGEMENT & DELIVERY:
a) No Last Time Buy order shall be binding upon NXP unless accepted in writing.
b) NXP may, in its discretion, ship products before requested delivery dates, after requested delivery dates, in partial shipments, or in consolidated shipments, based upon NXP manufacturing, inventory, capacity, logistics, or EOL planning requirements.
c) Customer shall accept and pay for all such shipments.
d) If Customer is unable or unwilling to receive product when available for shipment, NXP may ship, store, hold, or invoice such product at Customer's risk and expense.

5. ORDER ACCEPTANCE/CHANGE CONDITIONS:
a) All accepted Last Time Buy orders are firm, final, non-cancelable, non-reschedulable, non-reducible, and non-returnable. Customer may not cancel, terminate, defer, reduce, reconfigure, redirect, push out, or otherwise modify any accepted Last Time Buy order without NXP's prior written consent. If NXP authorizes any such modification, Customer shall remain liable for all finished goods, work-in-process, raw materials, supplier commitments, reserved manufacturing capacity, storage costs, inventory carrying costs, and any other costs incurred by NXP in support of the accepted order.
b) NXP reserves its right to make changes in NXP confirmed scheduled delivery dates, or to terminate any remaining undelivered quantities of your company's last time buy order(s), at any time, where required by manufacturing condition, capacity limitations, material shortages, quality concerns, yield impacts, supplier constraints, logistics limitations, regulatory requirements, or other commercially impracticable circumstances.

6. QUANTITIES:
a) NXP does not guarantee acceptance or fulfillment of any requested quantity. Accepted quantities may be limited based on available inventory, remaining manufacturing capacity, materials availability, yield performance, subcontractor capability, logistics constraints, quality requirements, forecast reliability, customer demand levels, strategic business priorities, or other operational considerations.
b) NXP may allocate available inventory and manufacturing capacity among customers,

distributors, products, and programs in its sole discretion. Notwithstanding the foregoing, NXP will endeavor to supply product considering the following priority:
- FIRST: The quantities in any existing unfilled orders and contracts acknowledged by NXP will be honored, then
- NEXT: The unfilled quantities in any volume agreement(s) or quantities in unexpired standalone quote(s) will be accepted, and
- FINALLY: NXP shall, where possible, reasonably accept additional quantities of discontinued product order quantities that NXP quotes based upon your company's identified requirements. In the event of conflict for limited availability discontinued products, the quantities for NXP customers, or NXP distributors, orders will be determined by NXP on a “First Come First Serve Basis”. These discontinued products order quantities will also be subject to NXP available inventory and remaining manufacturing capacity for the discontinued products.

7. DISTRIBUTION SALES:
If you are a NXP distributor customer, please contact your authorized NXP distributor sales representative for assistance in planning and making any last time purchase(s) of available discontinued products. Such purchases are to be negotiated solely between your company and the distributor.

8. LIMITED WARRANTY:
All discontinued product orders subject to this notice shall carry (a) NXP standard limited warranty as contained in NXP order acknowledgement or confirmation form, or (b) the applicable warranty set forth in a duly executed formal contract between NXP and your company; provided that:
a) NXP's sole obligation and Customers exclusive remedy for any valid warranty claim relating to discontinued products will be a credit for the affected discontinued product unless NXP expressly agrees otherwise in writing. NXP shall have no obligation to provide replacement product, repair, substitute product, expedited manufacture, or cover damages. Any replacement product, if agreed by NXP, shall be subject to product availability and NXP's then-current manufacturing capabilities and inventory. For clarity, discontinued products may not be available following the Last Time Delivery Date, and NXP shall have no obligation to restart production or procure materials to satisfy any warranty claim.
b) Any return claims must be made under NXP current Return Material Authorization ("RMA") procedures.
c) Except for NXP special distributor stock rotation policy returns only, there is no restocking of purchased discontinued product quantities allowed by NXP from its customers or from its distributors.

Disclaimer and Additional Provisions

Except as provided for elsewhere in this notice, the applicable terms and conditions of sale for NXP discontinued products will be the unmodified standard terms and conditions in NXP order acknowledgement or order confirmation form, incorporated herein in its entirety by this reference. Otherwise, the applicable, the terms and conditions contained in the terms and conditions contained in an executed written agreement in force between our companies shall apply.

NXP Semiconductors accepts no liability for excess re-procurement costs, labor costs, or liability for any special, incidental, or consequential damages whatsoever associated to NXP discontinued products, or associated with NXP final manufacture and performance against any last time buy orders related to the discontinued products covered by this notice.

Discontinued Product Terminology: Part Types Affected List

- **Orderable Part Number**
  NXP Part Number which includes part type and packing designator as referenced on the Customer order.
- **Customer Part Number**
  Customer Part Number as referenced in the NXP 3-year order/ship history.
- **Discontinued Part Number**
  NXP part number as carried by NXP Product Data Management database.
- **Discontinuation Type**
  Short description of the withdrawal status. Products listed as Full Withdrawal indicate that all Product Types with similar functionality are being discontinued. Products listed as Version Withdrawal indicate that a specific version or package is being discontinued but at least one other Product Type with similar functionality is still available.
- **Availability Non-Manufacturable**
  Some Product Types may not be available and are identified as Non-Manufacturable. NXP can no longer produce these products, and no supply or inventory exists for various reasons such as not acceptable product quality or unique manufacturing restrictions. Non-Manufacturable products cannot have a last time buy for commercially impracticable reasons.
- **Availability Limited**
  For Limited Availability Product Types, a unique manufacturing or limited inventory or time condition exists. Where Limited Availability coded products are still manufacturable, a limited quantity of the Product Type has been, or will be,

produced within NXP remaining capacity to meet our customers, or our distributors, commercially reasonable last time buy orders. Limited Availability products will be scheduled by NXP on a first-come/first-serve basis until the remaining Product Type manufacturing capacity or inventory is depleted. When the inventory for the Limited Availability Product Type is depleted, no additional last time buy order Product Type quantities can be supplied by NXP.

- **Availability Standard End of Life**
  Standard End of Life Products Types have no known supply restriction and NXP customers and distributors' last time buy orders can be met according to NXP discontinued product (DOD) policy.

- **Source**
  Sole Source indicates that the Product Type being discontinued is unique to NXP Semiconductors. Multiple Sources indicates that the Product Type being discontinued could be available through other suppliers.

- **Discontinued Part Last Time Buy Date**
  Date indicates the last date NXP will accept an order on the discontinued product. NXP allows a six (6) month last order period for discontinued products. Last Time Buying is not possible for "Non-Manufacturable" discontinued products. "Limited availability" discontinued products are subject to the remaining product inventory, or limited manufacturing conditions set forth in the DN notice. Ordering shall be limited on a first come/first serve condition until the remaining product capacity or inventory has been sold. All Last Time Buy order periods are measured from the original Issue Date of the Discontinuation Notice, not from any Discontinuation Notice Update Issue Date, unless otherwise communicated.

- **Discontinued Part Last Time Delivery Date**
  Date indicates the last date NXP will ship a discontinued product. Unless a Non-Manufacturable or Limited Availability condition and shorter time period is indicated in the PTA, NXP allows a twelve (12) month delivery time period for discontinued products measured from the Issue Date of the Discontinuation Notice. (For some products, NXP may extend the Last Time Delivery date beyond the standard horizon.)

- **Discontinued Part 12nc**
  NXP 12nc number represents the NXP master internal manufacturing control identification number for reference to each part type, version of the part type or packaging/conditioning (3 last digits), being discontinued

- **Discontinued Part Description**
  NXP short Product Type description or a brief Product Type description of the discontinued product supplied by the responsible Product Group.
- **Package Name**
  Discontinued Part Number Package Type description
- **Replacement Part Number**
  Any known NXP replacement product for the discontinued NXP type number is reference only information. NXP replacement part designation is NOT intended as a statement of warranty, or an indication that the listed replacement product meets the same form, fit, function or performance of the discontinued product until such time as NXP customers or distributors qualify such product to their specifications.
- **Replacement 12nc**
  Any known NXP replacement 12nc for the discontinued NXP type number is reference only information. NXP replacement part designation is NOT intended as a statement of warranty, or an indication that the listed replacement product meets the same form, fit, function or performance of the discontinued product until such time as NXP customers or distributors qualify such product to their specifications.
- **Remarks**
  Additional information about the discontinued products

Reason for Discontinuance

Discontinuation notification for this part due to reduced sales and low demand: As this part number has experienced consistently low sales and volume, continuing production has become unsustainable.

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:
