Notice of Product Discontinuation (End of Life)

Dear Valued Customers,

We would like to express our sincere appreciation for your continued support and patronage of TOREX products.

We regret to inform you that the products listed below will be discontinued. This decision has been made because our subcontracted manufacturing partner is facing increasing difficulty in securing the continued supply of certain components due to aging production equipment.

Although we carefully evaluated various options to maintain production and supply, we have concluded that it is unfortunately no longer feasible to continue manufacturing these products.

Please find below the details of the affected products, together with the Last Time Buy (LTB) date and the final shipment schedule.

We sincerely apologize for any inconvenience this may cause and greatly appreciate your understanding and cooperation.

Details**1. Products**

Discontinued Part Number	Product Description
XP202A0003PR-G	-30V, -5A P-Channel Power MOSFET
XP202A0003MR-G	-30V, -5A P-Channel Power MOSFET
XA202A0003MR-G	-30V, -5A P-Channel Power MOSFET
XCM526ASeris	3A, 16V Driver-Incorporated Step-Down DC/DC Converter
XCM526BSeris	3A, 16V Driver-Incorporated Step-Down DC/DC Converter
XC3202BSeris	Low Power Consumption Hall IC (Magnetic Sensor)

2. Schedule

Please find the schedule for the Last Time Buy (LTB) and Final Shipment below.

Last Order Date : March 31, 2027

Final Shipment Date : September 30, 2027

Sincerely yours,

T. Yamamoto
