August 20, 2026

Document #: 8ZDGF-1870-1

Dear Valued Customers

Nidec Components Corporation
Sensor Division

Notification of UL file number change for PCB used for pressure sensor

This is to inform you of upcoming changes to our pressure sensor products. This notification is intended to help you to take any necessary actions such as updating internal documentation or processes, in response to the changes described below.

1. Affected products

P-7100, P-8300, P-8505E, PA-400, PA-840, PA-848, PA-500, PA-750, PA-830, PA-838, PA-850, PA-858, PA-855, PA-860, PA-868, PA-920S, PA-928S, PA-930, PA-930S, PS15, PS20, PS8, PS83, PAS-838, PS85, PS86, PAS91, PG-100N/B, PG-75

2. Change description

CMK Products Corporation, the manufacturer of the printed circuit board used in the above products, has informed us that it will be absorbed and merged into its parent company, ***Nippon CMK Corporation***. As a result of this absorption merger, the UL File Number associated with the printed circuit board manufacturer will be changed.

UL File Number Change

Item	Before Change	After Change
UL File Number	E189501	E41363
Registered Company	CMK Products Corporation	Nippon CMK Corporation

3. Reason for Change

The merger is intended to enhance the overall strengths of both companies by combining and complementing their respective areas of expertise, thereby enabling the provision of improved products and services.

4. Evaluation results

• There will be no changes to the markings displayed on the printed circuit board, including the UL Type Number and UL trademark, as a result of the UL File Number change.

• The UL-recognized specifications and performance ratings, such as flammability classification and maximum operating temperature, remain unchanged.

• The manufacturer has confirmed that there are no changes to manufacturing equipment, materials, production processes, inspection criteria, or quality control standards. Therefore, no additional evaluation has been conducted by our company, and we consider the change acceptable based on the manufacturer's supporting evidence.

Important: For products that have obtained UL certification as finished products, there will be no change to the UL File Number of our products.

UL products

Series name		File No.
Pressure transducers with AMP	PA-20, PA-750, PA-758, PA-830, PA-838, PA-920S, PA-928S, PA-930, PA-930-A	E222253
Pressure switches	PS20, PS30, PS60, PS83	
Pressure gauges	PG-20, PG-30, PG-35, PG-35H, PG-35L, PG-75	
Pressure indicators	PZ-30※1	
Liquid leak esnsors	WL10	E255230

※ 1 : PZ-30 (Current output type) is not applicable.

5. Scheduled Implementation Date

Effective from production in October 2026 onward.

＊ The actual timing may vary depending on production conditions.

We have verified that this change does not affect product quality or performance. To proceed with the formal implementation of this change, we respectfully request your approval. Please provide your signature in the space below.
