## Advance Process Change Notification (APCN)

This Advance Product Change Notification (APCN) is issued to inform customers of changes to the products listed below manufactured by Micro Commercial Components Corp. (MCC).

| | |
|---|---|
| **Notification number:** | APCN-090926-1 |
| **PCN Title:** | Addition of Vietnam Assembly and Test Site for DFN Series Packages |
| **Issue date:** | 9/9/2026 |
| **Proposed effective date:** | 12/9/2026 |
| **Product type affected:** | Please refer to table 1 and table 2 |
| **Change Category:** | Assembly and Test Change |
| **Change Sub-category(s):** | Additional Qualified Assembly and Test Center(A&T) |
| **Change Classification:** | Major |
| **Change description and reason:** | Addition of MCC's Vietnam manufacturing site to increase production capacity, improve supply chain flexibility, and support future business growth and volume expansion requirements. |
| **Deposition of old product:** | New product will be produced in parallel with the existing product during the transition period. |
| **Identification of Changed product:** | ☐Body Marking ☑Lot code ☐Datasheet Revision<br>☑Labelling ☑Reel/packaging identification ☐Not Applicable<br>☐Date Code |
| **Contact Information:** | Please contact your respective MCC Account Manager (AM) / Inside Sales Representative (ISR/CSR) |
| **Approved by:** | Seaman Wu (Director of Quality)<br>TH Koay (Head of Product BU)<br>Steve Zhang (Director of Supply Chain)<br>Pamela Cheng (GM & EVP of Sales) |

Notes：

(1) This APCN is intended to provide advance notice of the planned addition of MCC's Vietnam facility as an alternative Assembly and Test site for the affected part numbers, allowing customers sufficient time for evaluation, sample qualification, and planning activities. Qualification and characterization activities for the Vietnam site addition are currently in progress.

(2) This change applies only to non-automotive qualified products. AEC-Q101 qualified products are not included in this notification.

(3) This Advance Process Change Notification (APCN) is provided to inform customers of an upcoming manufacturing site addition. It contains preliminary information regarding the proposed change and the affected devices prior to completion of qualification activities.

(4) There are no changes to the wafer fabrication process, package design, materials, or product form, fit, and function. The completed qualification and characterization results will be provided in the Final Process Change Notification (FPCN), which is planned to be issued no earlier than 90 days after the release of this APCN. Upon issuance of the FPCN, the change will become effective immediately.

(5) Customers may submit sample requests upon receipt of this APCN to support their evaluation activities. Sample availability and delivery schedules will be determined based on the request date, requested quantity, and qualification status prior to FPCN release.

**PCN Title: Addition of Vietnam Assembly and Test Site for DFN Series Packages**

Dear Customer,

This Advance Product Change Notification (APCN) is issued to inform customers of changes affecting the above-mentioned product(s) offered by Micro Commercial Components Corp. (MCC).

Customers are requested to acknowledge receipt of this notification within **30 days** from the issue date of this APCN by contacting their local ISR/CSR or sales representative.

If product samples are required for evaluation purposes, please submit a corresponding request within 30 days of this notification.

If you have any questions, require clarification, or need additional support regarding this APCN, please contact your local Account Manager (AM), CSR, or ISR.

Yours sincerely,

MCC PCN Team
