Product change notification (PCN)

Title / short description	WP 6000 Hardware Improvements
Affected article category	HMIs and industrial PCs
Change category	Material
Change number	CDR260004_E03-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Housing modification

Detailed description of the change

As part of an internal quality review, an opportunity to optimize the hardware design was identified. This modification ensures that the required insulation clearances between electrical components and the housing are maintained under all specified operating conditions. The change is intended solely to further improve product robustness and regulatory compliance.
The products' functionality, performance, interfaces, and usability remain unchanged.
