Product change notification (PCN)

Title / short description	The EAC certification will be removed, removal of the UKCA logo from theproduct, integration of the DT4i code, removing the packing slip from the product packaging
Affected article category	Electronic switching devices and motor control
Change category	Form and appearance, Approval, Packaging, Marking
Change number	CDK250036-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Update of product labeling, certification information, and documentation access

Detailed description of the change

We would like to inform you about recent changes to the labeling and certification of our products. The UKCA logo and certificate numbers have been removed from the article. Since the UK recognizes the CE marking, the UKCA logo is no longer required for the movement of goods. At the same time, the EAC certification (Eurasian Conformity) has been removed, as the existing certificate is no longer valid. No renewal or re-certification is planned. The EAC certification indicates compliance with the technical regulations of the Eurasian Economic Union (EAEU – including Russia, Belarus, and Kazakhstan) and allows products to be placed on the market in those countries.
In future, the packing slips will only be provided in digital form in the web shop. The packing slip can be found in the download area of the item using the QR code printed on the packaging label or by entering the item number in the web shop.
In addition, the “Electrically skilled person required” and “Please read documentation” symbols are being added to the packaging label.
Additionally, a QR code has been introduced on the product label. This QR code links directly to the product’s Digital Twin, where all relevant documentation, technical data, and certifications are available in a centralized and easily accessible format.

Identifying characteristics

Removal of the UKCA and EAC markings. Addition of a QR code on the product label providing access to the Digital Twin. Packing slips are no longer included in printed form and are available digitally via the QR code or Phoenix Contact website.

Start of Production (SOP)	-	**Last Time Delivery (LTD)**	-
Effective date (EOP)	2026-09-22	**End of Service (EOSR)**	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

- ☐ Software / Firmware Bugfix
- ☐ Short-term delivery stop by supplier
- ☐ Short-term recall by supplier
- ☐ Force majeure
- ☒ Product improvement with customer benefits
- ☐ Others
