BOURNS®

PRODUCT CHANGE **NOTIFICATION**

POWER TRANSFORMERS

Bourns® HCTSM11 and HCTSM15 Series Power Transformers

Addition of Manufacturing Site

Riverside, California – October 23, 2026 – In order to support our fast-growing demand and enhance continuity of supply, effective January 15, 2027, Bourns will establish an additional manufacturing site in China for the HCTSM11 and HCTSM15 Series Power Transformers. A list of the affected part numbers is included below.

Affected Part Numbers		
HCTSM110304HAL-E	HCTSM110103HAL-E	HCTSM150102HLF-E
HCTSM110102HAL-E	HCTSM150102HL-E	HCTSM151207FAL-E

The new additional manufacturing site uses the same design, materials, and manufacturing processes as the existing site. The transformers produced at the new additional manufacturing site will meet the same datasheet specifications as the transformers produced at the existing site. The standard packaging quantities, packing trays, and boxes used at the existing site will remain the same.

The form, fit, function, quality, reliability, and production lead time of these transformers from the new manufacturing site will be the same as those from the existing site. Traceability will be maintained through lot codes and date codes.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications to verify satisfactory performance. Orders for the affected part numbers received after January 14, 2027, may be filled interchangeably from either the existing manufacturing site or the additional manufacturing site.

Implementation dates are as follows:

Date that deliveries of products manufactured with new manufacturing site will begin ***January 15, 2027***
First date code using the above changes ***2701***

If you have any questions or need additional information, please feel free to contact Customer Service/Inside Sales.

Users should verify that the described changes will not impact the performance of the product in their specific applications.
