BOURNS®

PRODUCT CHANGE **NOTIFICATION**

SIGNAL TRANSFORMERS

Bourns® Model SM91525AL-E Signal Transformers

Additional Manufacturing Site

Riverside, California – October 23, 2026 – In order to support our fast-growing demand and enhance continuity of supply, effective October 15, 2026, Bourns will establish a new additional manufacturing site in China for the Model SM91525AL-E Signal Transformers. The affected part number is listed below.

Affected Part Number
SM91525AL-E

The new additional manufacturing site uses the same design, material and manufacturing process as the existing site. The transformers produced at the new additional manufacturing site will meet the same data sheet specifications as the transformers from the existing site. The standard packaging quantity, packing trays and boxes used at the existing site will remain the same.

The form, fit, function, and country of origin of the affected part numbers will remain the same. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance. Orders for the affected part numbers received after January 15, 2027 may be filled interchangeably from the existing manufacturing site or the new additional manufacturing site.

Implementation dates are as follows:

Date that deliveries of products manufactured at both manufacturing sites will begin: ***January 15, 2027***

First date code using the above changes: ***2703***

If you have any questions or need additional information, please feel free to contact Customer Service/Inside Sales.

Users should verify that the described changes will not impact the performance of the product in their specific applications.
