POWER TRANSFORMERS

Bourns® HCTSM8 and HCTSM10 Series Power Transformers

Additional Manufacturing Site

Riverside, California – October 30, 2026 – In order to support our fast-growing demand and enhance continuity of supply, effective January 15, 2027, Bourns will establish a new additional manufacturing site in China for the HCTSM8 and HCTSM10 Series Power Transformers. A list of affected part numbers is included below.

Affected Part Numbers				
HCTSM80101AAL-E	HCTSM80207JAL-E	HCTSM80308BAL-E	HCTSM80803AAL-E	HCTSM80512LAL-E
HCTSM80102AAL-E	HCTSM80304BAL-E	HCTSM81017CAL-E	HCTSM80809AAL-E	HCTSM100304FL-E
HCTSM80201AAL-E	HCTSM80305BAL-E	HCTSM80403AAL-E	HCTSM80910BAL-E	HCTSM100308BAL-E

The new additional manufacturing site uses the same design, material and manufacturing process as the existing site. The transformers produced at the new manufacturing site will meet the same data sheet specifications as the transformers from the existing site. The standard packaging quantity, packing trays and boxes used at the existing site will remain the same.

The form, fit, function, quality, reliability, and production lead time of these inductors from the new additional manufacturing site will be the same as the existing site. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance. Orders for the affected part numbers received after January 15, 2027 may be filled interchangeably from the existing manufacturing site or the new additional manufacturing site.

Implementation dates are as follows:

Date that deliveries of products manufactured at both manufacturing sites will begin ***January 15, 2027***
First date code using the above changes ***2701***

If you have any questions or need additional information, please feel free to contact Customer Service/Inside Sales.

Users should verify that the described changes will not impact the performance of the product in their specific applications.
