Handspring Treo 270 **Product Type** Smartphone **Dimensions (WxDxH)**

7.1 cm x 2.1 cm x 10.8 cm **Weight** 153 g **Colour** Steel grey

**Manufacturer's product description** This powerful wireless smartphone gives you everything you need to make crystal-clear calls - with all the features you've come to expect in a mobile phone, including speed dial, caller ID and call history. But what really sets Treo apart are advanced features like a fully integrated address book and a built-in keyboard that lets you quickly call anyone by simply typing their initials. Treo puts everything you need to organize your life right at your fingertips. You get all your favorite Palm OS applications, including Address Book, Date Book Plus, To Do List, Memo Pad, and more. And for tasks like updating your calendar, creating a to-do list, and writing a memo, the built-in keyboard is much faster than Graffiti. Worried about missing an important email while away from your desk? Don't be. Treo makes it easy to check your email and send replies any time, whether you're stuck in an unproductive meeting or in a hotel room thousands of miles away. Plus, the Treo's built-in keyboard makes typing messages quick and easy - no more struggling to peck out words with your mobile phone's number keys. With the award-winning web browser and the large color screen, Treo lets you visit virtually any website, not just those optimized for mobile phones. Get directions while you're driving to an important client meeting. Confirm your flight from the backseat of the taxi. Check the stock market or the baseball scores. With Treo, the information you need is always available.

Product Type Smartphone
