

| FAST CUT MULTI PURPOSE HOLE SAW SDS PLUS SHANK ARBORS WITH EXTRA LENGTH HIGH SPEED STEEL PILOT DRILLS |                           |                 |            |              |
|---|---------------------------|-----------------|------------|--------------|
| CAT NO  | FITS HOLE SAW DIAMETER    | FITS CHUCK SIZE | SHANK SIZE | SCREW THREAD |
| A1-1E   | 14-30mm (9/16" - 1 3/16") | SDS Plus        | SDS Plus   | 1/2"-20      |
| A2-1E   | 32-152mm (1 1/4 - 6")     | SDS Plus        | SDS Plus   | 5/8"-18      |

### 'Oops' Arbor

The A19 'Oops' arbor is for use in conjunction with either the A1, A2 or A10 hole saw arbors. Replacing the pilot drill, the A19 allows diameters to be enlarged by attaching a saw of the same size to that of the existing hole, thereby acting as a pilot for the larger diameter saw. Minimum hole enlargement is 4.7mm (3/16") between the pilot saw diameter and the cutting saw diameter.

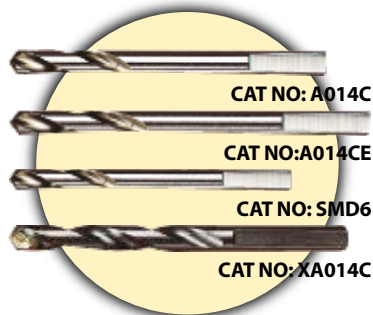

| 'OOPS' ARBOR |                                |
|--------------|--------------------------------|
| A19          | Fits A1, A2 or A10 type arbors |

### Arbor Extensions

300mm/12" extensions, suitable for the range of Starrett Arbors.

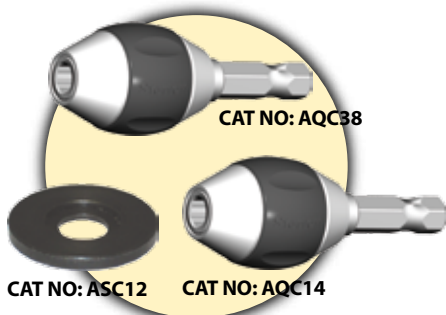

| ARBOR EXTENSIONS - 300MM / 12" |   |
|--------------------------------|---|
| A5                             | 13mm chuck size, fits A2, A17-12 and XA2 type arbors                      |
| A15                            | 9.5mm chuck size, fits A1, A10, A17-38, XA1, XA10 and XA17-38 type arbors |

### Arbor Pilot Drills

Replacement pilot drills are available for the complete range of Starrett arbors.

| ARBOR PILOT DRILLS - HIGH SPEED STEEL |   |
|---------------------------------------|---|
| A014C                                 | Fits all Starrett arbors - suitable for bi metal hole saws  |
| AO14CE                                | Extended length pilot drill fits all Starrett arbors - suitable for TCT Fast Cut Multi Purpose Hole Saws      |
| SMD6                                  | Pilot drill for TCT Sheet Metal Hole saws   |
| ARBOR PILOT DRILLS - CARBIDE TIPPED   |   |
| XA014C                                | Fits all Starrett arbors - suitable for use with Multi Purpose and Diamond Ceramic and Abrasive Material saws |

### Cat AQC14/AQC38 Quick Change Connector & ASC12 Safety Stop Collar

The Quick Change Connector is a superb addition to the Starrett hole saw range, allowing change of arbor without adjustment of drill chuck. Cat AQC14 is suitable for use with A4 type arbors and our Cordless Smooth Cutting Hole Saws, Cat AQC38 is suitable for use with A1, A10 and A17-38 type arbors, plus the complete range of Quickshot hole saws. Supplied with the ASC12 safety stop collar.

Designed to work with A1 and A4 type arbors, the ASC12 safety stop collar is designed to stop the hole saw and arbor 'following through' the hole once the cut has been completed.

| QUICK CHANGE CONNECTOR |  |
|------------------------|--|
| AQC14                  | Fits A4 and XA4C type arbors plus the complete Bi Metal Cordless Smooth Cutting Hole Saw Range |
| AQC38                  | Fits A1, XA1, A10, XA10, A17-38 and XA17-38 type arbors and the complete Quickshot range       |
| SAFETY STOP COLLAR     |  |
| ASC12                  | Fits A1 and A4 type arbors   |
