Bench Process Stop-Clock Timer

Product Description

Easy to use as a standard timer or automatically triggered by external devices for start/stop via 4mm jack sockets. This stop-clock is a high accuracy timer, with a robust construction ideal for regular use. Colour coded buttons and jack sockets make the timer extremely practical and convenient to use.

• Robust construction - impact-resistant ABS case with non-slip rubber feet for stability on the bench
• 30ppm quartz crystal with a fixed calibrated capacitor of 27pF for high accuracy timing
• 15mm LCD display
• Practical and convenient to use with colour coding and clear marking on buttons and jack sockets
• Quick and easy press-button action for activation of Start/Stop & Reset
• Stop, Start & Reset actuation buttons located on the top of the timer for faster reaction times
• 4mm jack sockets for Start/Stop & Reset allow automatic triggering of timer by external devices
• Pressing the reset button during a timing cycle displays the time elapsed
• Supplied with battery

Technical Specification

Range	99mins, 59secs 99/100ths with auto roll-over
Resolution	1/100th second
Accuracy	±1 sec in 24 hours
Power	1 x 1.5V AAA Alkaline Battery **(ALR-3)**
Dimension	100 x 105 x 80mm
Weight	151g
