

Product Update

Solder System Workstand Changes

In an effort to improve and consolidate our product offerings, the following changes in our Soldering System Workstands have been made:

MX-500 Workstands have been replaced with the “Auto Sleep” Workstand (WS1). The WS1 packed with the system is black. A Workstand with a green cradle, WS1G, is available as an option.

SP200 Workstand has been replaced with the “Auto Sleep” Workstand (WS2). The WS2 packed with the system is black. A Workstand with a green cradle, WS2G, is available as an option.

PS-800 Workstand has been replaced with the “Auto Sleep” Workstand (WS2). The WS2 packed with the system is black. A workstand with a green cradle, WS2G, is available as an option.

MFR Workstands have no changes because they have built-in sleep and shut off modes. However, a WS1 can be used with an MFR System.

Note: Systems Now Share Workstands

- The WS1 Workstand is now being used for the MX-500 and can be used for the MFR Systems.
- The WS2 Workstand is being used for both the SP200 and PS-800 and PS-800E Systems.
- The WST Workstand is now being used for the MX-500 Talon®.
- The Workstands in the WST and MFR Tweezer Series are the only stands that are not "Auto Sleep".

The “Auto Sleep” stand does not shut the iron off; it reduces the power available to the tip while it is positioned in the stand. The recovery time, from when the tip is removed from the Auto Sleep Stand, is within seconds.

Please see the table below for a cross reference of previous and current (new) Workstand part numbers.

Current Part Number	Product Description	New Part Number
MX-WS4	MX Workstand	WS1
MX-WSC4	MX Workstand Cradle	-
MX-WS5	MX Talon Workstand	WST
<i>New</i>	MX Talon Workstand (Green Cradle)	WSTG
MX-WSC5	MX Talon Workstand Cradle	WSTCB
<i>New</i>	MX Talon Workstand Cradle (Green)	WSTCG
SP-WSK1	SP Workstand	WS2
SP-CRADLE	SP Workstand Cradle	-
PS-WSK1	PS Workstand	WS2
PS-WSC1	PS Workstand Cradle (Black)	WS2CB
PS-WSC2	PS Workstand Cradle (Green)	WS2CG
PS-WSAS	PS Auto Sleep Workstand (Black)	WS2
PS-WSAS-G	PS Auto Sleep Workstand (Green)	WS2G
