### NETRACK

## Key Features

- ▶ **Fully welded and assembled. Ready to use right out of the box.**
- ▶ **Includes two adjustable-height shelves, removable top and side panels, and doors.**
- ▶ **Lots of built-in space for cabling.**
- ▶ **Locking front and rear doors for security.**
- ▶ **Optional accessories available.**
- ▶ **Join NetRack to other racks or cabinets with the optional Multibay Joining Kit.**

NetRack is a fully welded and pre-assembled cabinet constructed of heavy 12-gauge steel. The mounting angles, also made of 12-gauge steel, are tapped with  $\frac{1}{8}$ " thread in the EIA 310-D universal pattern. There's ample space inside the frame sides for cabling, so large bundles of wire and cable fit without a problem. Plus, there's a locking PLEXIGLAS® front door that provides quick access and security. The door can easily be changed from left- to right-opening with a quick-release pin.

NetRack's interior opening height (without its door) is 78.913 inches (200.439 cm) high; it measures 19 inches (48.3 cm) wide and 31.75 inches (80.65 cm) deep. NetRack weighs 275 pounds (124.7 kg).

NetRack comes in a black or beige finish. Outfit it with our available optional accessories.

### Top Fan Panel

Replace NetRack's existing solid top panel with this accessory, which features a pair of 50-CFM fans that will prevent stored equipment from overheating. Available in black or beige.

### Bottom-Mount Tower Shelves

Mount these shelves to the bottom of the NetRack. Each shelf slides independently from its stored position and is able to hold up to 90 pounds (40.8 kg) of equipment. Positive lock-out slides are included. Available in black or beige.

### Extra Stationary Shelf

If you have additional equipment you'd like to store in the NetRack, order this accessory. Available in black or beige, the

black models are either solid or vented. Choose the model that best fits your storage needs.

### Multibay Joining Kit

Planning for expansion? Remove NetRack's side panels and join the frame to other racks or cabinets with the optional Multibay Joining Kit.

### Caster Base

If you need easy mobility when you make moves in your facility, choose the heavy-gauge steel caster base with 3-inch (7.6 cm) casters. Measuring 30 inches by 19 inches (76.2 x 48.3 cm), each base includes four non-locking swivel casters. It's rated for 900-pound (408.2-kg) weight capacity. Available in black or beige.

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

### Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a

vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.

Black Box offers the best warranty program in the industry—Fido Protection®. For more information, request **FaxBack 22512**.
