DATA SHEET

ROADRUNNER - HIGH DENSITY EUROCARDS

A series of Eurocards covering the majority of prototyping and low volume production, needs for high density applications.

These boards have been designed specifically for use with the Roadrunner Wiring System and can also be used for wire wrapping systems or for hard wiring.

Available in single and double Eurocard sizes which will accept DIN 41612 96, 64 and 32 way connectors.

Single Height	-	Single sided	160 x 100mm	RRB-109
	-	Double sided	160 x 100mm	RRB-107
Double Height	-	Double sided	233,4 x 160mm	RRB-118
	-	Double sided	233,4 x 220mm	RRB-120
Specification:	-	Epoxy glass, matrix 2.54 x 2.54, hole size 1.02mm dia. DIN 41612 connector pattern. Board thickness 1.6mm, copper thickness 1 Oz/ft ² or 35uM or 305g/m ² .
