Simple backup and storage with Maxtor DriveLock™ for added security

Maxtor pioneered the revolutionary “pushbutton” approach to data backup, and stays in the forefront with the new Maxtor OneTouch II external hard drive, which offers the Maxtor DriveLock™ feature for added data protection along with enhanced backup capabilities and a simplified user interface.

The Maxtor OneTouch II drive provides up to 300GB of easy add-on storage that’s perfect for beginners and experts alike, in the office or at home. Connectivity is a snap using USB or FireWire® ports, and the included new Dantz® Retrospect® Express HD backup software gives users the power to roll back their system to a healthy state after a system problem, easily retrieve deleted files, and recover individual files or an entire hard drive.*
Easy-to-use software lets you set up automated backups, retrieve lost files, and keep your data safe with click of a mouse.

- Set up regular backups, set your preferences, and retrieve your backup files
- Optimize your drive’s performance, manage your power settings, and customize your Maxtor OneTouch button.
- Protect your files with Maxtor DriveLock. Just set a personal password to protect access to your files.
