INFORMATION SHEET

HIGHLIGHTERS

The EC safety data sheet is required only for dangerous substances and preparations subject to the relating EC directives and will be provided to you, where applicable.
 For **STAEDTLER HIGHLIGHTERS** safety data sheets are not necessary, because these products are not regarded as dangerous substances or preparations as of the relating EC directives.

STAEDTLER always considers the relevant national and international regulations regarding consumer protection during the selection of the raw materials and in their manufacture. In addition, and this is of major importance, we pursue developments in the chemical and technical fields to offer our customers safe products that point the way ahead.
 Since middle of 1996 **STAEDTLER** is certified according to **ISO 9001**. All processes are subject to regular controls. Thus, a constant high quality is ensured.

TOPSTAR
art. 364

TextSurfer
art. 3600

HOUSING	INK	HOUSING	INK
barrel and protector cap: polypropylene PP fibre-tip: polyethylene refill station: PE/PP STAEDTLER does not use colouring agents on the basis of cadmium or lead for the colouring of plastics.	Solvent: water Special colouring agents (not toxicologically harmful colours with heavy metal content, not radioactive)	barrel and protector cap: polypropylene PP with rubber grip fibre-tip: Polyester ink feeding system: ABS (acryl-butadiene-styrene-copolymers) STAEDTLER does not use colouring agents on the basis of cadmium or lead for the colouring of plastics.	Solvent: water Special pigments not toxicologically harmful pigments with heavy metal content, not radioactive

Liquid STAR

art. 324

HOUSING	INK
barrel and protector cap: polypropylene PP STAEDTLER does not use colouring agents on the basis of cadmium or lead for the colouring of plastics.	Solvent: water Special pigments not toxicologically harmful pigments with heavy metal content, not radioactive

plastics 364-3600-374-324

Technical advantage: PP/PE are impermeable to water vapor, hence a longer storage life and service life can be assumed in comparison to polystyrene PS.
 Environmental aspect: PP/PE split up into natural components like water and carbon dioxide during thermal disposal.

STAEDTLER TOPSTAR DRY paper + copy + fax
art. 128 64-wood-cased dry highlighter

INKJET

WOOD CASING	LEAD
timber from controlled reforestation	talc binding agent on cellulose based (similar to wallpaper paste) lubricant on stearin based (similar to candle wax) fluorescent pigments (toxicologically harmful colours with heavy metal content are not used, not radioactive)

The wood-cased TOPSTAR DRY with its 4 mm thick, homogeneously gliding lead is the ecological alternative to the markers with plastic housing. A special lead guarantees clean use.
 Special characteristics: marking on very thin papers, no smearing on INKJET documents

STAEDTLER HIGHLIGHTERS are subject to a comprehensive quality inspection and are not harmful if used in the proper manner.
